Tom VAUTRAY

Full-Stack Software Engineer

Professional summary

Full-stack engineer with **5+ years of development experience**. Works with **Go, Java/Spring Boot, Rust, Angular and React**, from requirements clarification to code review.

Professional experiences

2022 - now

Full-Stack Software Engineer | **Thales**
►**Spec-driven**, **Domain-driven** & **Test-driven** development with **and** without AI
►Develop with **Nix, Rust, Go, Angular, React, Spring Boot, and more**.
►Code reviewer
►Ensure **tests unicity**; setup CI to run automated tests

2019 - 2022

Full-Stack developer | **Lapp Muller**
Software developer: JHipster/Spring-Boot/Java & React Product design software
ISEN ITII Apprentice at **Lapp Muller**
►Programming a solution for a specific need (designing cables)
►**Domain-driven** development for a JHipster/React/Spring-boot App

2019

Software developer | **La Croix-Valmer's Town Hall**
►**Database** engineering & monolith development
►Direct interaction with a non-technical client

Projects

Internal QA Test-Prioritization Tool

Sole developer of an internal **Angular/Spring Boot** tool to **prioritize regression tests**, deployed with **Docker**. Defined requirements with QA, who reported **3× faster testing during major-version campaigns**. **Sole Deployer/DevOps** of this same tool

PixInd - Personal Game Project

Created PixInd, an **Domain-driven development**. Defined **domain entities and relationships** as a development reference, separate from game behaviors.

Publicator - Image Publication Workflow

Designed Publicator for **image selection, metadata, scheduling and platform publishing**. Defined its functionality, **high-level architecture** and concise specifications to guide AI-assisted implementation.

Educations

2019 - 2022 **Engineer by apprenticeship**

Master's Degree in Engineering, specialized in Industrial IT from **ISEN**,
an institution **accredited** by the **French Engineering Title Commission (CTI)**.
This program integrates **academic studies** with **professional experience** through the ITII partnership.
►Managing a developers team (school class) with GitKraken & GitHub
►Developing expertise through hands-on projects and coursework

2017 - 2019 **Aix-Marseille University (AMU)**

French diploma comparable to an **Associate Degree** in Electrical **Engineering** and **Computer Science**, typically awarded after two yrs of post-secondary education in the American system
►Discovering programming as a passion

Centers of interest

Snowboarding (@smow.hawk on instagram)
Making **origamis** (I am **meticulous**)
Climbing (Makes me find **solutions** with **others'** advice)
Playing **drums** (Working with a **team** is important for me)
